

# Rimage Printers and AutoPrinters

## CD, DVD, & BLU-RAY DISC™ PRINT SOLUTIONS

Are you looking for a fast, easy, and cost effective way to print professional artwork on CD, DVD and Blu-ray Disc™ media? Rimage Corporation has a solution to fit any print need, large or small.

Rimage makes printers for stand-alone disc printing for small to large jobs. Rimage printers are available as stand alone or automated devices to deliver the flexibility you demand. AutoPrinter Robotics are the same high-speed, long-life, state-of-the-art robotics we use on our Producer line - our top product line.

### AutoPrinters

Rimage Auto Everest™ 600 and Auto PrismPlus!™ Autoprinters automate direct-to-disc printing. With 300 disc input trays and the autoloader feature, you simply load your discs and walk away. Rimage Auto-printers are an affordable and flexible choice for printing pre-recorded discs or pre-printing blanks for future recording.

Auto-printers features and benefits are:

- Efficient production of jobs from 10 to 1000s of discs
- Variable printing with merge fields
- No set up or clean up time and cost
- No specialized operators required
- Dependable Rimage robotics

Rimage Systems are delivered with CD Designer artwork creation software. Design your artwork and send the job to the printer. Get professional looking results in no time.

### Everest™ 600

The Rimage Everest 600 Thermal Retransfer printer is used to produce photorealistic images on CD, DVD, and Blu-ray Discs, in less than one minute per disc. In addition to delivering the highest print quality in the industry, the Everest printed discs won't smudge, scratch or fade. The Everest 600 printer is available as a stand-alone printer for manual operation or an AutoPrinter for automatic, unattended operation.

#### Key Features

- Professional, 600 dpi resolution
- Full Color or monochrome black
- Permanent, durable printing
- Fixed cost per disc

600 dpi Print Resolution: The highest print resolution in the industry delivers photo quality images with sharpness and detail that are not available in other print technologies.

## PrismPlus!™

The Rimage PrismPlus! Printer is a high speed printer used to print monochrome information on CD, DVD, or Blu-ray Discs. The Rimage PerfectPrint technology enables registered printing of standard or variable images and text on your original, silk-screened media. The PrismPlus! is available as a stand-alone printer for manual operation or an AutoPrinter for automatic, unattended operation.

PrismPlus! Printer

### Key Features:

- Low Production Costs
- Fast Print Times
- Print variable information and logos

The PrismPlus! is ideal for high-volume applications where low cost printing is required. Discs can be printed in under 5 seconds and for less than 4 cents. For customers who prefer using preprinted, silk-screened discs, the PrismPlus! PerfectPrint feature can print variable information that is registered on specific locations on each disc.

## Rimage Printer Family

Everest 600 Printer

Everest III Printer

PrismPlus! Printer

Printing Technology	Thermal Retransfer	Thermal Retransfer	Thermal
Print Resolution	600 dpi	300 dpi	Mass Transfer
Image Quality	Photo realistic color printing	Full color	Monochrome
Print Durability	Excellent	Excellent	Good

Rimage Systems experience few errors and downtime, but even the most reliable equipment occasionally requires service. A single call to Rimage support connects you to an expert team of knowledgeable professionals. Unlike other disc output options, our Rimage systems have replaceable parts that can be easily swapped out without tools or training for quick and hassle-free on-site troubleshooting and repair. Rimage offers an array of service maintenance options to meet the unique needs of your organization.

Visit [www.rimage.com](http://www.rimage.com) for solutions to print and burn applications.  
Rimage offers robust, scalable systems to suit the most demanding publishing environments.
